Sedum "Autumn Joy"
☀️ 1-2 ft.

Save water, time and money by building a water-wise garden that 'makes every rain drop count' and that can prevent run-off pollution and flooding. Try incorporating these low-maintenance, drought-tolerant plants into your garden this summer!

See these beautiful plants at 1211 John Counter Blvd., where we provide free guided tours in our Water Conservation Garden, during summer, Mon.-Fri. at 10:30 AM.
